

# FULL MOBILE DESIGN:

## HomeScreen+Add receipts(expense)

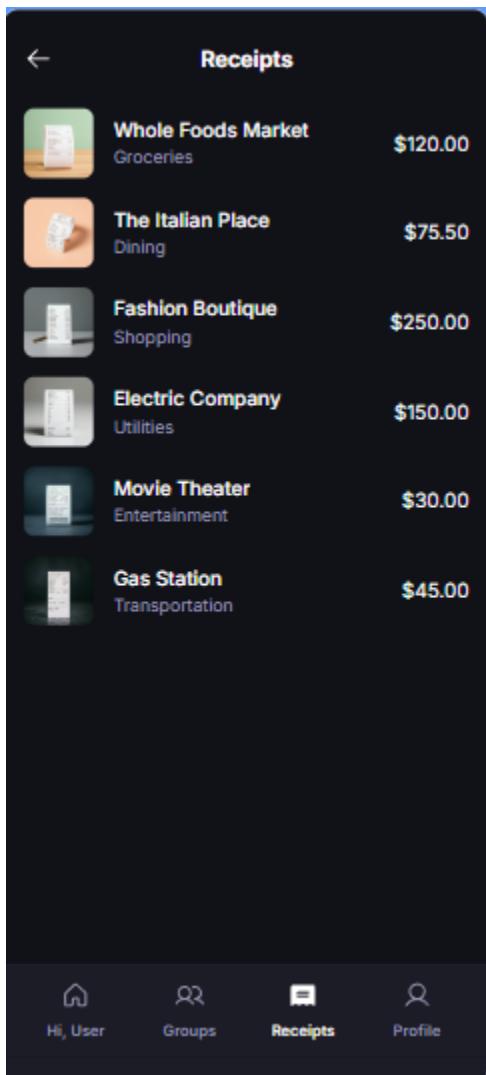

## GroupsScreen+Create Group:

The image displays two screenshots of a mobile application interface. The left screenshot shows the 'Groups' screen with a dark background. At the top, there is a back arrow icon and the word 'Groups'. Below this, the heading 'My Groups' is displayed in bold purple text. Three group items are listed: 'Family Budget' (4 members), 'Vacation Fund' (2 members), and 'Shared Expenses' (3 members). Each item has a small thumbnail icon to its left. At the bottom of the screen is a blue button with a white plus sign and the text 'Create Group'. A navigation bar at the very bottom includes icons for Home, Groups (which is highlighted in blue), Receipts, and Profile.

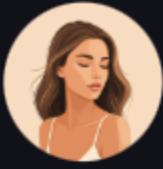

The right screenshot shows a modal dialog titled 'New Group' with a dark background. It features a close 'X' button at the top left. Two input fields are present: the first for 'Group Name' and the second for 'Add Members (email or username)'. At the bottom of the modal is a large blue 'Create Group' button.

## ReceiptsScreen(like a history):
